

Ladies in Control (LIC Network)

Ladies in Control (LIC) is an international professional network dedicated to advancing women leaders in Governance, Risk, Internal Control, Compliance, Audit, Privacy, Cybersecurity, ESG and AI Governance. We bring together women across the control professions to connect, share expertise, develop leadership capabilities and advance their careers.

Our vision

To become the leading international network for women in Governance, Risk, Internal Control, Compliance and related control functions.

Our mission

To empower women leaders through networking, mentoring, knowledge sharing, professional development, thought leadership and career acceleration.

Six strategic pillars

01

Community

Meaningful professional connections through networking, knowledge exchange and regional communities.

02

Mentoring

Structured mentoring and intergenerational exchange for emerging leaders, executives and aspiring board members.

03

Learning Academy

Advancing expertise across governance, risk, compliance, privacy, cybersecurity and AI governance.

04

Career Accelerator

Professional development, executive branding, career guidance and leadership opportunities.

05

Thought Leadership

Research, regulatory insights, publications and professional dialogue.

06

Recognition

Celebrating excellence, leadership, mentoring and contributions to the control professions.

Eight expert pillars

Governance

ESG

Risk Management

Cybersecurity

Internal Control

Data Protection &
Privacy

Compliance

AI Governance

Our ambition

To build an international community where women in control functions can connect, learn, mentor, lead and gain recognition for their professional contributions. Our roadmap envisages a foundation in Europe, followed by regional expansion into the GCC and North America.
